Switzerland

Dear Henry,

Congratulations on your CanBIM Foundations Certification!

Your CanBIM Foundations Certification has no expiry date and is valid starting from **February 2020** as noted on your CanBIM Foundations Certificate. The Foundations Certification recognizes individuals who have successfully completed BIM-related educational courses and programs.

Now that you are CanBIM Foundations Certified, you may wish to consider working toward becoming a CanBIM Certified Professional. CanBIM Professional Certification requires all applicants to have work related experience within a professional environment. There are four levels of Professional Certification (P1, P2, P3 and CP), each with different requirements and criteria.

As a Foundations Certification recipient, you may use the Foundations Certification to support your Professional Certification application. Depending on the level of Professional Certification you apply for, your Foundations Certification will reduce the number of Professional hours required to become certified as a CanBIM Certified Professional.

Visit the CanBIM website for more details on how to apply for CanBIM Professional Certification.

If you have any questions about your CanBIM Foundations Certification please feel to contact Catarina Hammar, Certification Associate at [certification@canbim.com](mailto:certification@canbim.com).

Best Regards,

A handwritten signature in black ink that reads "Gerry Lattmann". The signature is fluid and cursive, with the first name "Gerry" being more prominent than the last name "Lattmann".

Gerry Lattmann  
Executive Director  
Canada BIM Council
